Patent Number: USUS7953416B2

Claim Number: (1

52. A process for dynamic routing of customer contacts to service providers via a telephone, comprising the steps of: establishing accounts for a plurality of service providers that provide non-telephonic -based services; permitting the plurality of service providers to bid against one another for a live telephone call based on a customer per-contact charge; creating a contact list comprised of the service providers ranked from the highest bidder service provider to the lowest bidder service provider; receiving a live telephone contact from a customer; routing the live telephone contact from the customer for a live conversation with the highest ranked bidder service provider on the contact list; and charging the service provider account receiving the live telephone contact the customer per-contact amount bid by the service provider.

Element 1:

52. A process for dynamic routing of customer contacts to service providers via a telephone, comprising the steps of:

Ring Router Call buying program is a pay per call program exclusively directed towards lead generation for insurance providers. Ring Router markets using internet, TV and radio and provides active call rerouting to insurance agents based on their location and availability. Since, it takes bids from agent to provide the customer call to that agent, it seems like a dynamic routing process. Further from reference 3 and 4, it is evident that ring router uses dynamic routing.

Please note that the reference 3 and reference 4 have the same content, but they have different domain name and hence I am keeping both of them.

Ref 1: http://www.ringrouter.com/faqs/

Ref 2: http://www.ringrouter.com/

Ref 3: http://www.ringrouter.com/pay-per-call-features/

Ref 4: http://www.paypercallmarket.com/features/

Element 2:

establishing accounts for a plurality of service providers that provide non-telephonic -based services;

For joining in to ring router, insurance agents have to create their accounts on ring router, where they can bid for their call and buy calls. It also provides a dashboard where agents can track their calls and take necessary steps.

Ref 1: http://go.ringrouter.com/login

Ref 2: http://www.ringrouter.com/faqs/

Element 3:

permitting the plurality of service providers to bid against one another for a live telephone call based on a customer per-contact charge;

Ring Router considers several factors before routing a call to an insurance agent (service provider). One such factor is the bud amount. Also ring router routes an active call to only one agent and hence, it is evident that ring router allows agents to bid from their ring router account.

Ref 1: http://www.paypercallmarket.com/features/

Ref 2: http://www.ringrouter.com/faqs/

Element 4:

creating a contact list comprised of the service providers ranked from the highest bidder service provider to the lowest bidder service provider;

As per the video present on reference 1, in incoming call is routed to the agents in that particular location. Also, as per reference 2 the highest bidder is connected to the incoming call. Hence, it is evident that a list of agents in a particular locality is maintained , who have signed onto Ring Router services and hence, it is also evident that their bid amounts are also stored.

Ref 1: http://www.ringrouter.com/

Ref 2: http://www.ringrouter.com/faqs/

Element 5:

receiving a live telephone contact from a customer;

From the vide present in reference 1, it is evident that ring router receives an incomingc all from a willing customer.

Ref 1: http://www.ringrouter.com/

Ref 2: http://www.ringrouter.com/faqs/

Ref 3:

Element 6:

routing the live telephone contact from the customer for a live conversation with the highest ranked bidder service provider on the contact list; and

The incoming live call from customer is routed to the highest bidder for that call.

Ref 1: http://www.paypercallmarket.com/features/

Ref 2: http://www.ringrouter.com/pay-per-call-features/

Element 7:

charging the service provider account receiving the live telephone contact the customer per-contact amount bid by the service provider.

RingRouter charges an agent for all the incoming calls. Also, since the highest bidder is selected to maximize revenue, it indicates that the agent who is receiving the call is charged as per the bid amount he proposed.

Ref 1: http://www.ringrouter.com/refund-policy/

Ref 2: http://www.paypercallmarket.com/features/

Non-Disclosure Agreement:

We understand that for the purpose of assisting you in collecting data, you may disclose to us certain confidential information that you want to keep confidential; therefore, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, we agree as follows:

1. For a period of twelve (36) months from the date we receive your confidential information ("Effective Date"), we will not use or disclose the information, except: (a) in the event that such information (i) comes into the public domain not through us; (ii) is already known to us at the time of disclosure; (iii) is lawfully otherwise learnt or independently developed by us; or (iv) is required to be disclosed by law.

2. Since a breach of our obligations hereunder may result in irreparable harm to you, we agree that upon such breach or threat thereof, you shall be entitled to specific performance and other injunctive relief without posting a bond, and in the event of disclosures required by court order, we shall promptly notify you of the proceeding.

3. This agreement supersedes all prior discussions and writings and constitutes the entire agreement between you and us with respect to the subject matter hereof. This Agreement shall be binding upon the successors and assigns of the respective parties, and may not be modified except by an instrument executed by both parties.
